The SPC coolant pump is co-axial pump / motor design to processing-material cooling device such as milling, drilling, cutting, grinding these widely machine tools, it is suitable to deliver coolant, light oil and all kind non-aggressive liquids.
Borehole Pumps

**SP series**
- Potable water supply
- Agricultural irrigation
- Pressure boosting
- Mining applications
- Groundwater lowering
- Drinking water

**ST series**
- Water supply
- Agricultural irrigation
- Pressure boosting
- Potable water supply
- Agricultural irrigation
- Drinking water

**SPM series**
- Automatic systems
- Irrigation systems
- Rainwater harvesting system
- Increasing pressure systems

---

**Vertical Multistage Centrifugal In-line Pump**

**SB / SBI / SBN series**
- Light industry
- Water treatment
- Irrigation and agriculture
- Water supply and pressure boosting
- Heating, ventilation and air-conditioning

Grade A Hot Water Circulator Pump

**AHW / AHWS series**

*High energy-efficient variable speed circulator pump with 8 different modes selection.*

**Applications**
- Ground source heat systems
- Boiler/Solar water heating systems
- Hot-water recirculation systems
- High temperature liquids recycle systems
- Water circulation for cooling air-conditioning systems
- Specifically designed for single and double-heating systems

Grade B Booster pump & Circulator Pump

**HH / HW / HWS series**

**Applications**
- Ground source heat systems
- Boiler/Solar water heating systems
- Hot-water recirculation systems
- High temperature liquids recycle systems
- Water circulation for cooling air-conditioning systems
- Specifically designed for single and double-heating systems

Silent Booster Pump

**SSA series**

**Applications**
- Water pressure boosting
- Water transferring
- Water circulating
- Domestic water supply
- Housing

www.stairs.com.tw
4" Oil Filled Submersible Motor

4" Submersible oil filled Motor
- 2 WIRE
- 3 WIRE

Stairs’ rewindable 4" oil filled submersible motors are designed to operate dependably in 4" and larger boreholes. The motor is 100% tested before shipment.

4" & 6" Encapsulated-resin filled Motors

4" & 6" Encapsulated-resin filled Motors

Stairs’ Encapsulated-resin filled motors is developed with market expectation to meet the robust construction and stringent requirement, which is for 4" & 6" or larger well. The motor is 100% tested before shipment.

Pressure Tank

SPTB / SPTT / SPTN series

Applications
- Water storage
- Water pressure
- Water transferring
- Drinking water

www.stairs.com.tw
Applications

- Basement water removal
- Waste water drainage
- Water transfer
- Sump / effluent handling
- Dewatering
- Fish pond & fountain circulation
- Sewage handling
- Factory waste water handling
Submersible Vortex Sewage Pumps

**Applications**
- Waste water drainage
- Water transfer
- Dewatering
- Sewage handling
- Factory waste water handling

**XV series**

**SV series**

**SVN series 316SS**

**SC series Cutter**

**SA series Agitator**

**GD series**

**Applications**
- Waste water treatment
- To transfer various wastewater and sewage
